

DOES YOUR BUSINESS NEED A FRESH APPROACH?

My name is Gary Jones the director of point>design solutions, and I provide tactical marketing, which is the ability to suggest a solution and then have the experience, knowledge, to manage the production from start to finish. I have over 37 years experience in the print & design industry which enables me to provide realistic, cost effective solutions within the desired time frame.

My goal is to add value to your business, be the one person you can rely on, to suggest solutions to get the results, predominantly through graphic design, printing and your marketing requirements. My mission statement says it all;

“By delivering fresh creative Ideas with integrity, sharing a laugh along the way, our clients know they can rely on us to get results, start to breathe easier with peace of mind, knowing that we manage the whole production”.

A **fresh idea** comes in many forms, a twist to the approach, how to deliver the message, the ability to identify something that will help differentiate your business to stay ahead of your competitors. On top of this I work with business owners making sure your brand is consistent throughout all advertising.

What's the Point?

I'd love to meet in person and introduce myself, a **fresh approach** to your company. I have an amazing team of professionals to offer a multitude of solutions, keep up with the pace of change in the digital age and a forward thinking environment to offer a major competitive advantage.
